Faith Based ¾ & Transitional Houses

The following ¾ Houses follow a faith based approach to recovery. Call for details regarding if the program is only for people who desire a relationship with Jesus as the path to recovery or also for those with an "open mind" to gaining a relationship with Jesus. Some of the programs listed below have requirements for participants to perform work projects to support the ministry. Some have rules requiring that participants seek or not seek outside employment. You may call or write to the programs to clarify those issues.
