Social Security – Agenda

The Basics

How Social Security Works

When Is the Best Time to Begin
Taking Social Security?

What is Social Security?

- Granted by an act of congress in 1935
- Considered a “retirement” program, but also provides:
 - Disability benefits
 - Benefits to your survivors
- Provides for automatic cost of living adjustments annually
 - Average COLA since 2000 – 2.17%
 - COLA increase for 2017 – 0.3%

Life Expectancy in 1935

How Many People Receive Social Security?

- 65 million people in one of three categories
 - disability insurance
 - retirement insurance
 - survivor insurance
- For elderly, it's their largest source of income

Source: Social Security Administration (SSA), Fast Facts & Figures About Social Security, August 2016

Benefits Don't Compare to Earnings

The More Money Made, the Smaller the Replacement Rate

Replacement Rates for Retired Worker Age 66, 2016

■ Career Average Earnings ■ Payable Benefits

Source: SSA, Actuarial Note, Replacement Rates for Hypothetical Retired Workers, June 2016

Social Security is Half or Most of Total Income for Many

At least 50% of total income

48%

of aged beneficiary couples

71%

of aged non-married beneficiaries

At least 90% of total income

21%

of aged beneficiary couples

43%

of aged non-married beneficiaries

■ Social Security ■ Other

Benefits Establish an Income to Build On

Type of Beneficiary	Average Monthly Benefit after COLA January 2017	Average Yearly Benefit
All retired workers	\$1,360	\$16,320
Aged widow(er), non-disabled	\$1,300	\$15,600
Aged couple, both receive benefits	\$2,260	\$27,120

Source: SSA, Fact Sheet, 2017 Social Security Changes, October 2016

Calculating Your Benefit: A Multi-Step Process

Average Indexed Monthly Earnings (AIME)

Primary Insurance Amount (PIA)*

$$\begin{aligned} & 90\% \text{ of the first } \$885 \text{ of AIME} \\ & + 32\% \text{ of AIME } \$885 \text{ to } \$5,336 \\ & + 15\% \text{ of AIME over } \$5,336 \end{aligned}$$

PIA

- 40 credits needed to qualify, generally. 1 Credit = \$1,300 in 2017
- Estimated maximum benefit = \$2,687*

*2017 Formula

Source: <http://www.socialsecurity.gov/OACT/COLA/piaformula.html>

When You Were Born Matters

If born on January 1st, refer to the previous year.

If born on the 1st of the month, your benefit – and your full retirement age – are calculated as if your birthday was in the previous month.

Source: SSA Fast Facts & Figures About Social Security, August 2016

Spousal Options Can Boost Household Benefits

Sam's benefit
\$2,000

Kathy's benefit
\$800

or

spousal benefit of up to 50%
of primary worker's benefits
\$1,000

Sam	\$2,000
+ Kathy	\$1,000
<hr/>	
Household	\$3,000

- Must have been married for at least 12 months
- Can't apply for spousal benefit until spouse has filed for Social Security

Source: SSA Publication No. 05-10024, ICN 454930, March 2016

Surviving Spouses Can Pass Along Benefits

Sam's benefit
\$2,000

Kathy's benefit
\$1,400

If Sam
passes away,

Kathy's benefit
increases to
\$2,000

How it works:

- Kathy must be at least 60 years old (50 years old if she is disabled)
- Sam and Kathy must have been married for at least 9 months prior to his death (with exception for accidents)

Source: SSA Publication No. 05-10024, ICN 454930, March 2016

Benefits Beyond for Ex-Spouses and Families

Former Spouses

- If age 62 or older, unmarried, and if the marriage lasted 10+ years. Based on ex-spouse's social security
- If divorced for at least 2 years and both ex-spouses are at least age 62, the ex-spouse can receive benefits even if still working

Children

- Children up to age 18 (or 19 if full-time high school student)
- Disabled children – even if 18 or older
- Unmarried children, generally

Source: SSA Publication No. 05-10024, ICN 454930, March 2016

Until Age 70, Each Month You Wait Increases Your Benefit

Percent of Full Benefit Payable

Source: SSA Publication No. 05-10147, ICN 480136, July 2016

Civil Retirement System Participation May Reduce Benefits

Government Pension Offset

- Covered by Civil Retirement System rather than Social Security
- Reduction applies to spousal/survivor benefits

Windfall Elimination Program (WEP)

~~40%~~
~~90%~~ of the first \$885 of AIME

+ 32% of AIME \$885 to \$5,336

+ 15% of AIME over \$5,336

PIA

- Covered by Civil Retirement System and Social Security
- Phased out for individuals who have substantial earnings covered by Social Security between 20-30 years

Source: www.socialsecurity.gov

Retirement Earnings Test

Claim early, and money may be withheld. The good news is, it can be earned back.

Temporary Benefit Reduction

Before the beneficiary's FRA, SSA withholds some or all of her Social Security benefits for any month she earns over the RET exempt amounts.

Benefit Increase After FRA

After reaching FRA, SSA increases her Social Security benefits for any months she was affected by the RET.

a. We assumed that the beneficiary received a monthly benefit of \$1,000 before the RET, which factors in the reduction for early retirement. Full calendar year benefits are assumed and annual adjustments for cost-of-living and RET exempt amounts are not shown.

Lifetime Totals

Over a typical life span, an RET-affected beneficiary recoups most, or all, of the benefits SSA withheld before FRA.

- In 2017, if earnings exceed \$16,920
 - For every \$2 over the above limit - \$1 is withheld from social security benefit
- In the year that you reach full retirement age, the limit for that year goes to \$44,880
 - For every \$3 over the above limit, \$1 is withheld from benefit until the month you reach full retirement age
- The illustration shows how the RET works for a hypothetical female beneficiary who claims benefits at age 62, works until age 66 earning \$25,200 a year, and lives to age 86.^a

Source: www.socialsecurity.gov

Benefits May Be Subject to Taxes

Percent of income tax you may have to pay	Single Filers / Qualifying Widow(er)	Joint Filers
Up to 50% if “combined” income is between . . .	\$25,000 and \$34,000	\$32,000 and \$44,000
Up to 85% if “combined” income exceeds . . .	\$34,000	\$44,000

Combined Income: Modified Adjusted Gross Income (MAGI)

- + nontaxable interest income
- + 1/2 of your social security benefits
- = combined income

Timing Factors: Retirement Dates, Marital Status, Health History

General Guidelines

		← Earlier	FRA	Later →
Single Men/ Women		Start no earlier than FRA		
Spouses	If your benefit is lower, start early, unless benefits would be lost to earnings test.	If your benefit is higher, start no earlier than FRA.		
Widows	If your benefit is half of spouses, claim yours at 62 then claim widow benefit at 66.		
	If your benefit is higher, claim widow benefit first then maximize your benefit later.		

When is the Best Time to Begin?

Drawing Early Has Costs. Delaying May Have Benefits.

If you *start* at ...

age **62**

age **66**

age **70**

Your monthly benefit ...

Collecting early will **decrease** your monthly payment amount

Delaying benefits can **increase** your monthly payment amount

2015 Budget Act Eliminates Previous Strategies

	Before	After
Deemed Application Rules “Claim Now, Claim More Later” Restricted Application Strategies	Only applies prior to Full Retirement Age	Expanded to apply to all benefits regardless of age except for those who attain 62 prior the end of 2015
File and Suspend	An individual could suspend his/her own benefits, but spouses could draw spousal benefits	If an individual suspends earnings, the spousal benefits are also halted

[Benefit Calculators](#)
[Frequently Asked Questions](#)

Benefit Calculators

Social Security Quick Calculator

Benefit estimates depend on your date of birth and on your earnings history. For security, the "Quick Calculator" does *not* access your earnings record; instead, it will [estimate your earnings](#) based on information you provide. So benefit estimates made by the Quick Calculator are rough.

Although the "Quick Calculator" makes an initial assumption about your past earnings, you will have the opportunity to change the assumed earnings (click on "See the earnings we used" after you complete and submit the form below).

Enter your date of birth (month/day/year format) / /

Enter earnings in the current year: \$

Your annual earnings must be [earnings covered by Social Security](#).

If you entered 0, we assume you are now retired. Enter the last year in which you had covered earnings and the amount of such earnings.
Year: Earnings: \$

You must be at least [age 22](#) to use the form at right.

Lack of a substantial earnings history will cause retirement benefit estimates to be unreliable.

Delay Filing – Large Difference in Earned Income

Kathy

PIA = \$700. Full retirement age = 66

Files for reduced individual benefit of \$525 per month

Age 62

FRA

Collects spousal benefit of \$500, bringing monthly benefit to \$1,025

Age 70

Switches to survivor benefit of \$3,168 per month

Sam's Death

Begins receiving individual benefit of \$3,168 per month

Sam

PIA = \$2,400. Full retirement age = 66

The filing strategy utilized above represents an example of early filing combined with late filing to increase Social Security benefits. Results may differ depending on each individual's earnings history.

 When is the Best Time to Begin?

Basic Comparison of Accumulated Benefits

Combined Early, Kathy Early Sam 66 and Sam 70

Kathy \$700, FRA 66
 Sam \$2,400, FRA 66

The above chart represents an example accumulated benefits with early filing combined with late filing to increase Social Security benefits. Results may differ depending on each individual's earnings history.

When is the Best Time to Begin?

File Restricted Benefit – Strategy Similar Earned Income

Available if age 62 prior to 1/2/2016

Kathy

PIA = \$2,100. Full retirement age = 66

Files allowing Sam to begin spousal benefits and collects \$2,100 per month

Switches to survivor benefit of \$3,168 per month

Age 62 — FRA — Age 70 — Sam's Death

Files for spousal benefit only and collects \$1,050 per month

Begins receiving individual benefit of \$3,168 per month

Sam

PIA = \$2,400. Full retirement age = 66

The filing strategy utilized above represents an example of Restricted filing to increase Social Security benefits. Results may differ depending on each individuals earnings history.

 When is the Best Time to Begin?

Basic Comparison of Accumulated Benefits

Combined Early, Both 66 and 70

Similar Earned Income

The above chart represents an example of accumulated benefits with Restricted filing to increase Social Security benefits. Results may differ depending on each individual's earnings history.

When is the Best Time to Begin?

Survivor Benefits Are Unique from Other Retirement Benefits

Kathy

PIA = \$2,000. Full retirement age = 66

Begins survivor benefit of \$1,430 per month

Switches to individual benefit of \$2,640 per month

Age 60

FRA

Age 70

Sam

PIA = \$2,000. Full retirement age = 66

The filing strategy utilized above represents an example of File and Suspend to increase Social Security benefits. Results may differ depending on each individual's earnings history.

 When is the Best Time to Begin?

Can You Reset Social Security Benefit? Do-Over Option

	Before December 2010	After December 2010
Do-Over Option	Collect benefits at 62, and repay benefits at any time up to age 70 to restart at the higher amount	Withdrawal decision must be made within 12 months of the original election and each individual is only granted one withdrawal per lifetime

When is the Best Time to Begin?

Social Security – Filing for Benefits

How to File

- Via the Internet at www.socialsecurity.gov
- In the office or over the telephone
- For an appointment, call 1-800-772-1213

When to Contact Social Security

- Up to 3 months before you retire or attain age 62
- If over age 62, review your benefit options to determine when to start

Social Security Planning Worksheet

Social Security Information

- 1) What is your current age? _____
- 2) What is your spouse's current age? _____
- 3) Are you planning to work until your Full Retirement Age? Yes No Maybe
- 4) Is your spouse planning to work until Full Retirement Age? Yes No Maybe
- 5) Are you considering delaying Social Security benefits past Full Retirement Age? Yes No Maybe
- 6) Will you continue working in retirement? Yes No Maybe
- 7) Do you have sufficient financial resources outside of Social Security to meet your income needs? Yes No
- 8) Are you planning for survivor benefits? Yes No
- 9) Do you have any health concerns or concerns about a shorter life expectancy? Yes No

Financial Information

Do you/your spouse have:

	<u>You</u>		<u>Your Spouse</u>	
	Yes	No	Yes	No
A 401(k) plan with current or previous employer?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Assets in IRA accounts?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other assets?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Any fixed or variable annuities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

When is the Best Time to Begin?

Social Security Cost as a Percentage of GDP

Future forecast: Benefits can't be sustained at 100%

- 2016 Trustee's Report states that Social Security is fiscally unsustainable.
- In 2034 the Social Security trust funds will be depleted.
- Estimated tax receipts will be sufficient to pay approximately 79% of benefits.

Unlikely that Social Security benefits for current retirees will be substantially affected by reform proposals that might emerge.

Figure II.D2.—OASDI Income, Cost, and Expenditures as Percentages of Taxable Payroll
[Under Intermediate Assumptions]

Closing the Gap: Two Categories to Consider

Increase Taxes

- Apply Social Security tax to all wages
- Increase payroll tax from 12.4% to 14.98%

Reduce Benefits

- Raise the FRA to 70 in stages
- Adopt chained CPI
- Adjust Benefits
 - Cut 16% immediately/permanently
 - Reduce benefits for those with lifetime wages above the national average

Summary

The Basics

Social Security benefits can be an integral part an overall retirement planning strategy

How Social Security Works

- Understand eligibility and how benefits are determined
 - Understand how working in retirement may affect benefits
-

When Is the Best Time to Begin Taking Social Security?

- Evaluate social security and how to integrate benefits into a financial plan for retirement years including when to begin
- Consider options to maximize benefits while reducing potential tax liability

American Century Investments

Managing Money, Making An Impact

American Century Investments® is a leading asset manager focused on delivering investment results and building long-term client relationships while supporting research that can improve health and save lives.

Performance-Focused for Nearly 60 Years

- Founded in 1958 by Jim Stowers Jr., our investment professionals aim to outperform relevant benchmarks and peer groups using a highly defined, disciplined and repeatable process that emphasizes independent thinking.
- We take an active, team-based and risk-adjusted approach to managing equity, fixed income and alternative investments.
- With a global presence, we help clients around the world achieve their goals.

Pure Play Business Model

- Investment management is our sole focus, which empowers us to align our decisions with client expectations.
- No ancillary businesses compete with our clients or dilute our resources to serve them.

Privately Controlled and Independent

- Our ownership structure allows us to maintain a long-term view in the best interest of our clients—we're not beholden to quarterly earnings pressure.
- We take an independent view, guided by our commitment to do the right thing for our clients. This focus on integrity has earned the trust of our clients for nearly 60 years.

Prosper With Purpose™

- Every day, people focus on making the world a better place for themselves, their families and their organizations. You can give back something more valuable than money.
- By investing with us, you also invest in the future of others and potentially impact the lives of millions. That's possible because of the distinct relationship with our primary owner, the Stowers Institute for Medical Research.
- Our dividend payments support the Institute's work of uncovering the causes, treatments and prevention of life-threatening diseases, like cancer. It's how we and our clients together redefine prosperity.

Together we can become a powerful force for good ... it's like nothing you've ever seen from a money management firm.
